19 of the 30
most polluted
cities in Europe
are **Italian**

(IS Global Ranking)

Particulate matter is the
6th mortality
factor
in the world

(IHME)

Particulate matter
is included in the
carcinogenic
substances of
Group 1

(WHO)

*Living in the **Po Valley**, one of the most polluted areas of Europe, analysing air is an important task, considering the impactful consequences of climate change in our times.*

Pressure

Humidity

Primary missions

SPS30

PM Mass
Concentration ($\mu\text{g}/\text{m}^3$)

PM Number
Concentration ($\#/ \text{cm}^3$)

Scientific studies have highlighted the dispersion of bacteria and viruses into the atmosphere and their transmission over long distances due to aerosol particles which are carried by the wind and in turn, spread bacteria.

This decision was further discussed and eventually put into action as a result of the Covid-19 pandemic.

- **Launch:** the sterile non-woven gauze is inserted into the capsule
- **Immersion:** the gauze is soaked in 10 mL of deionized water in which it will release the collected bacteria
- **Petrifilm:** after 2 minutes 6 mL are aspirated with a sterile syringe, and then deposited on the culture medium of the Petrifilm

Main Board

Sensor Board

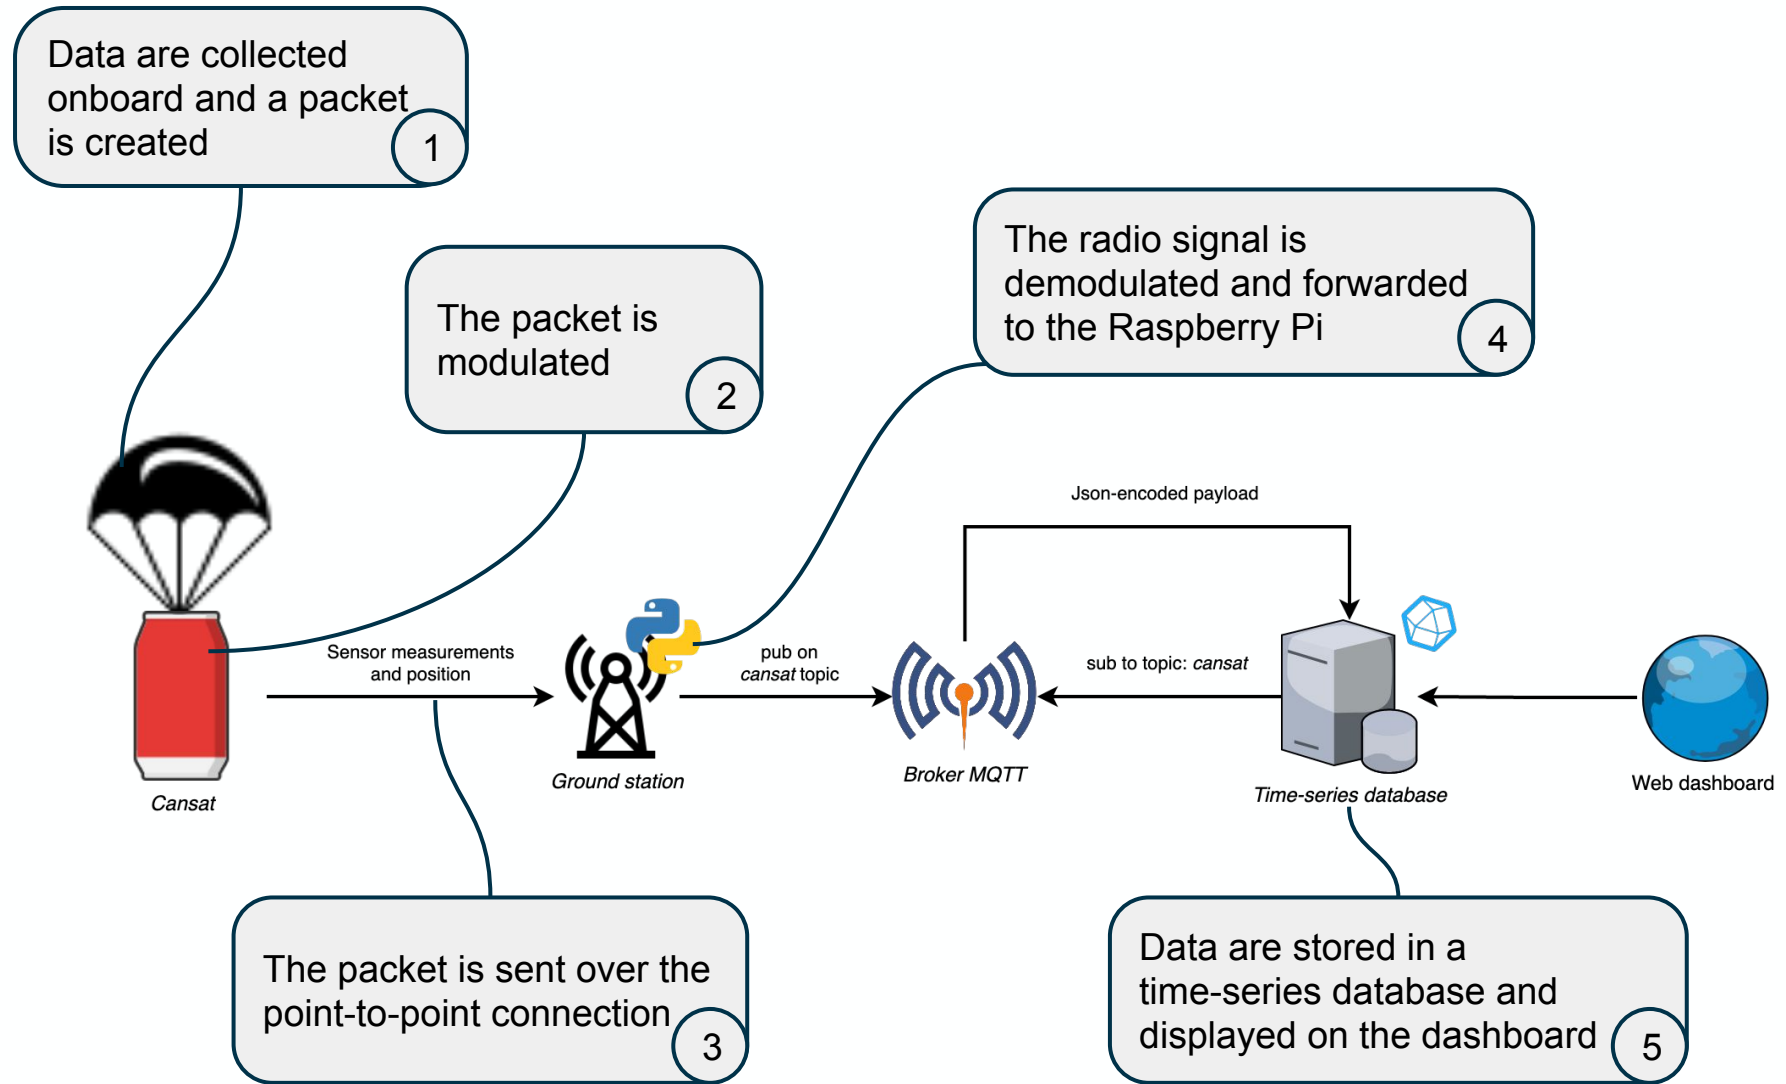

CanSat onboard firmware

built on top of both vendor and custom libraries, with focus on fault tolerance by design

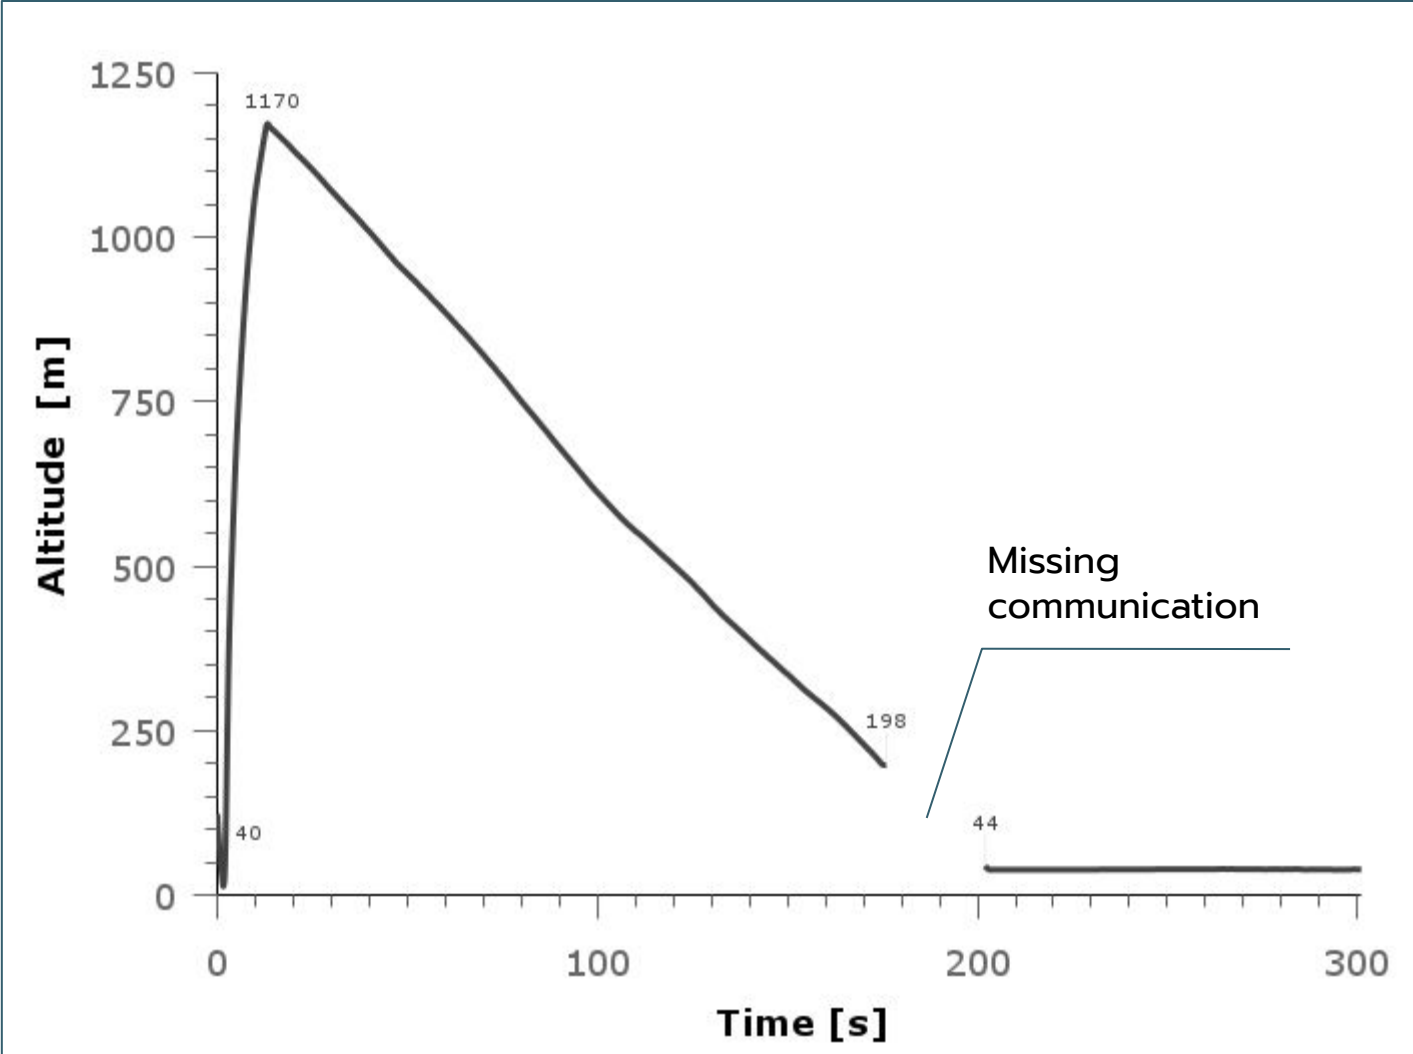

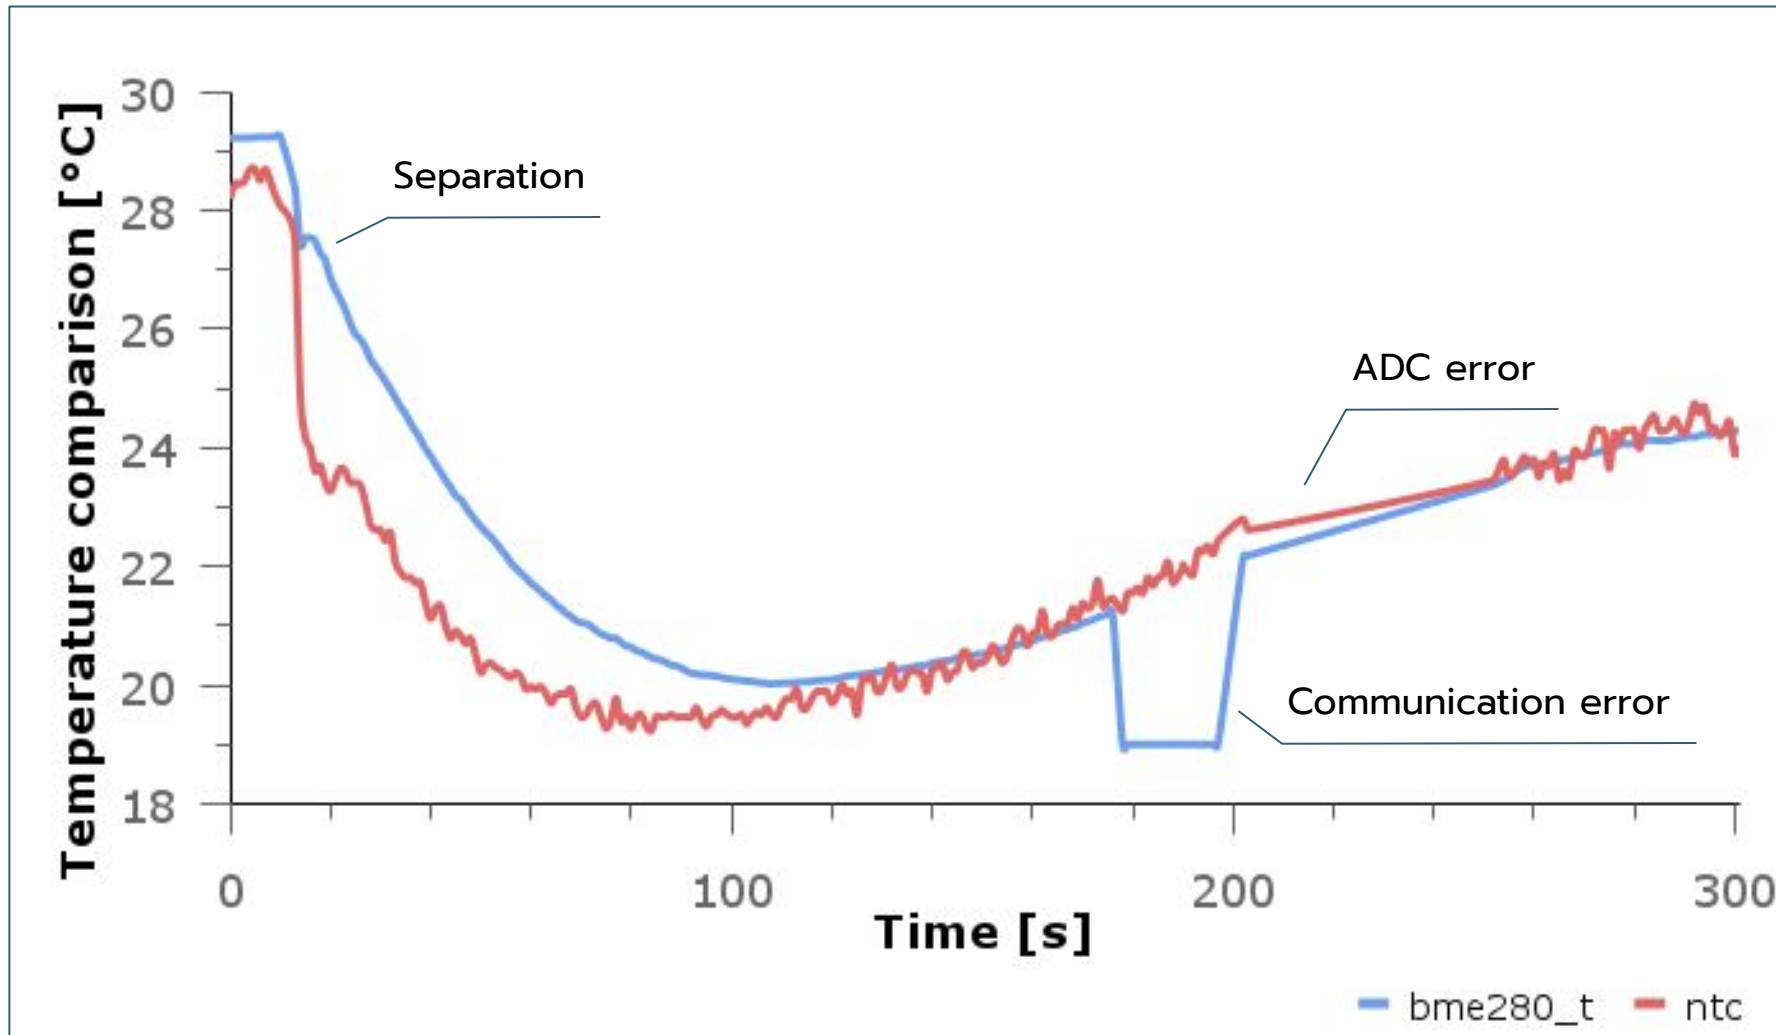

- Long Range
- Low Power
- High sensitivity
- Spread spectrum modulation
- Noise resistance

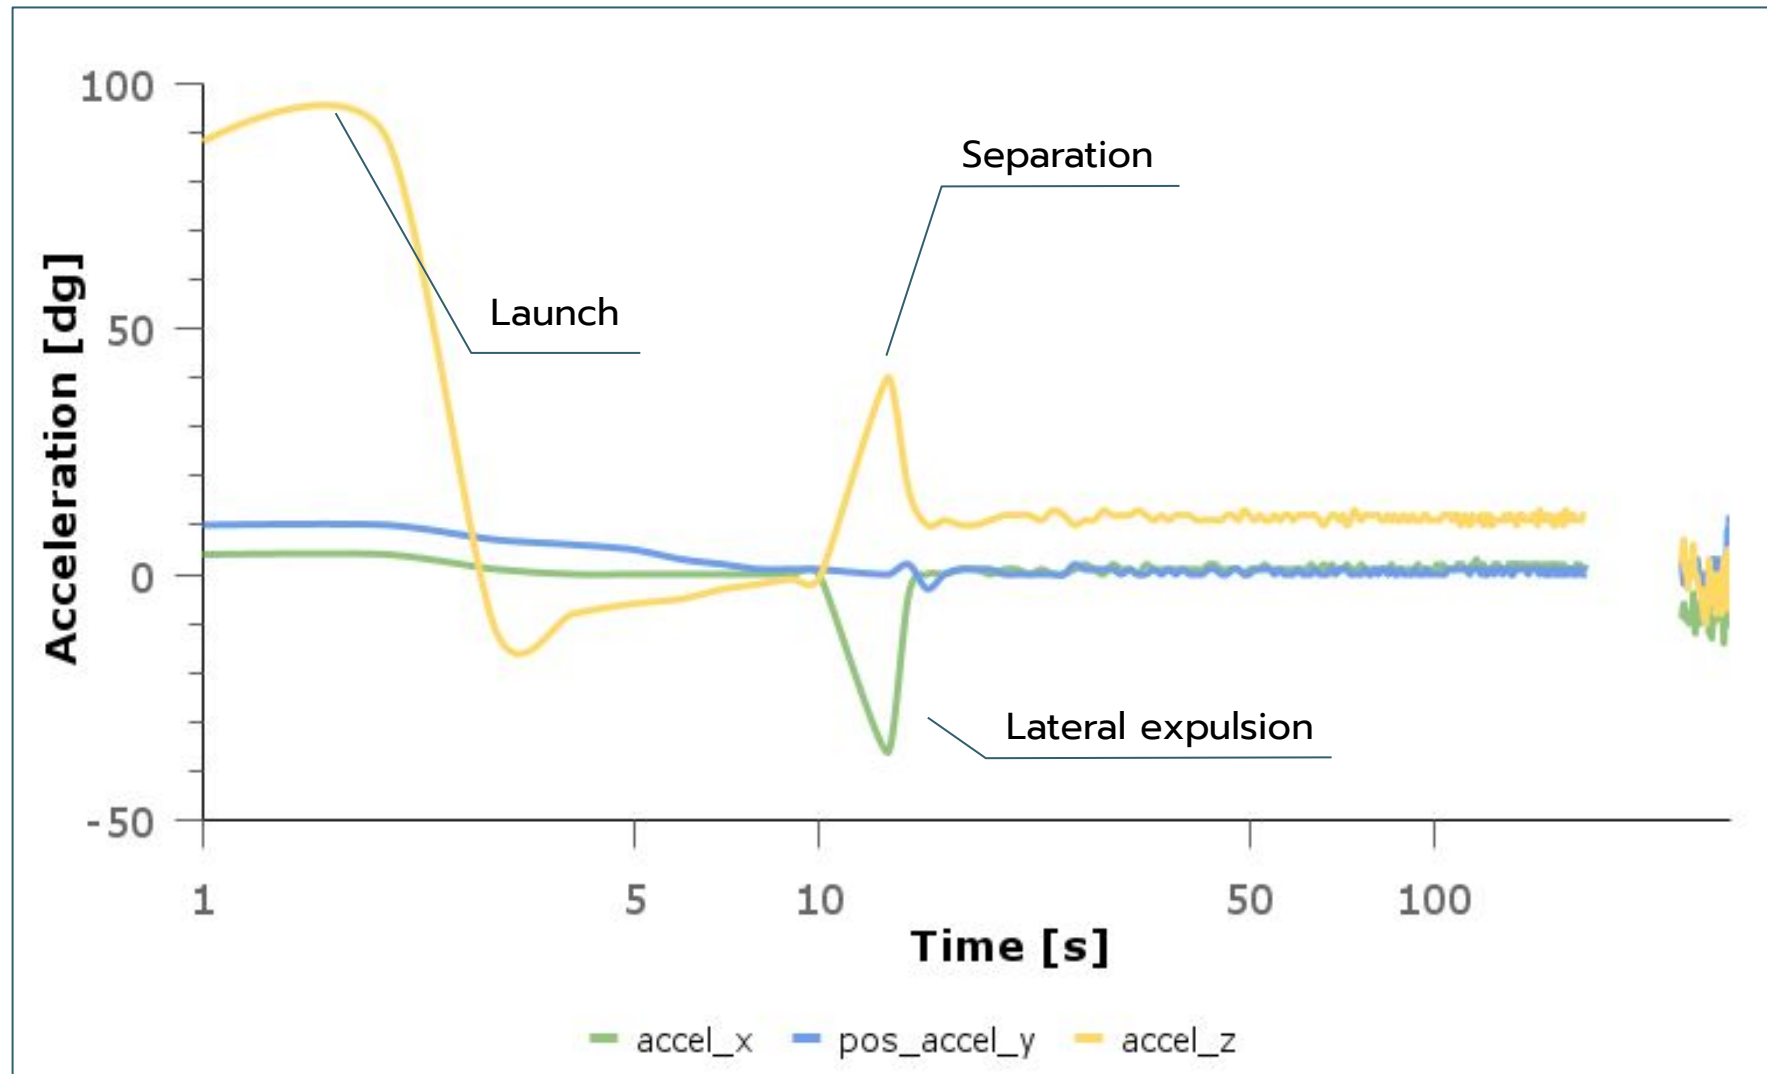

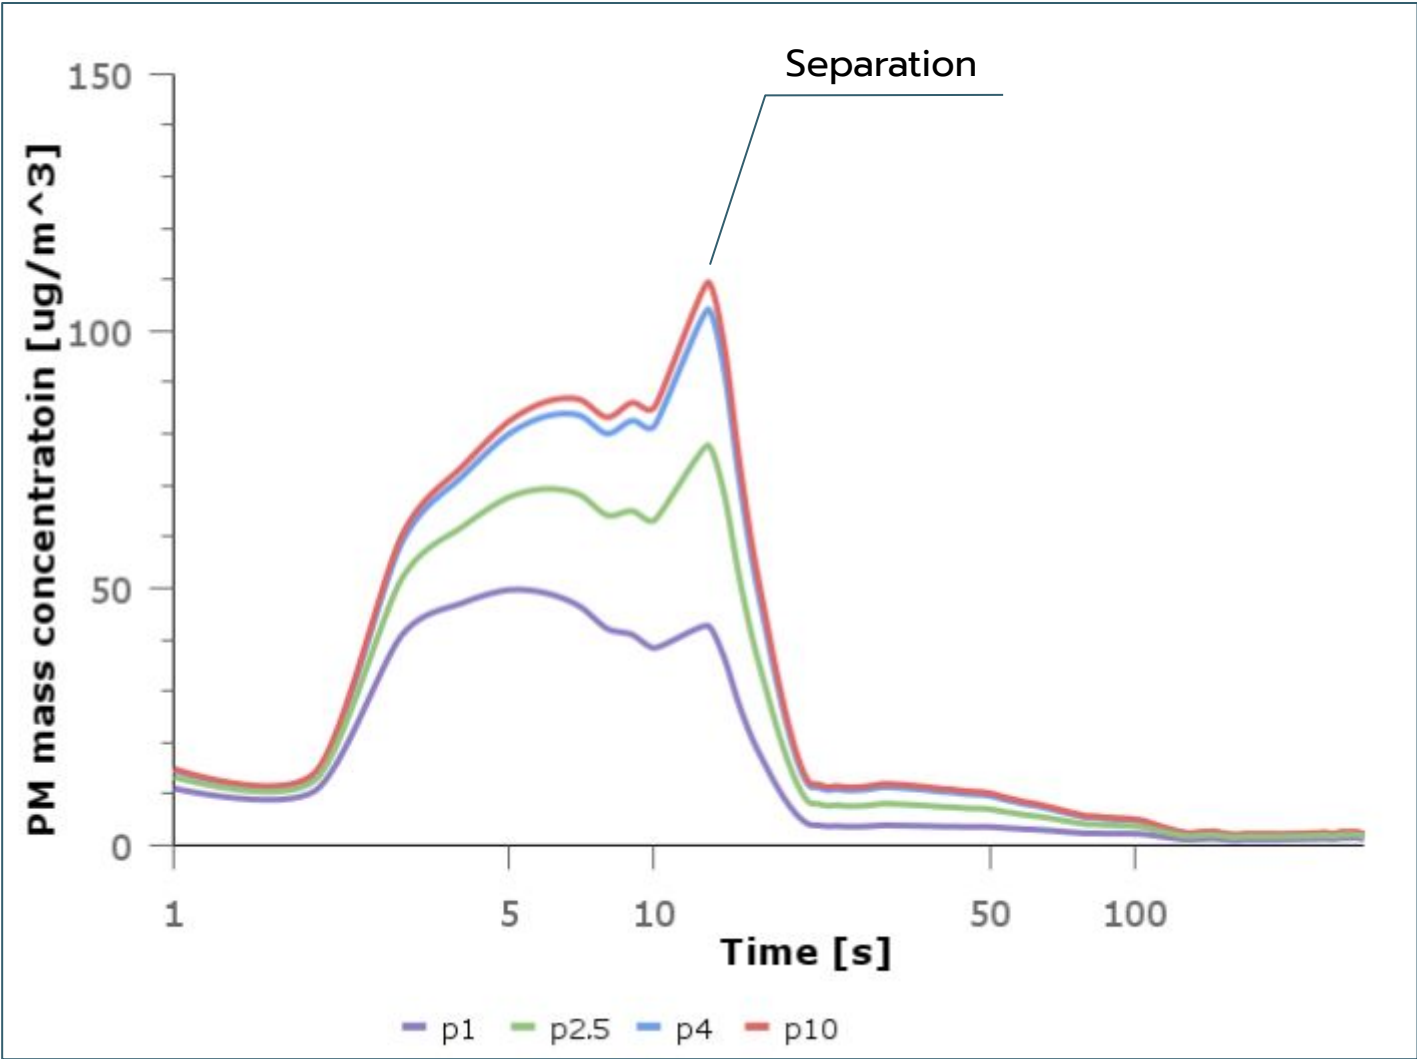

3D simulation of the antenna radiation pattern

*The morning following the launch it was possible to notice the formation of a **bacterial colony** (1 red dot).*

The result is acceptable: the flight time (3 min) is quite short, as is the presence of bacteria in the air.

Characteristics	Figure (units)
Height of the CanSat	115 mm
Mass of the CanSat	300.3 g
Diameter of the CanSat	65 mm
Additional length of external elements (along axial dimension)	70 mm
Flight time scheduled	158 - 182 s
Calculated descent rate	5.48 - 6.32 m/s
Radio frequency communication	433 MHz
Power consumption	0.9214 W (max)
Can cost	€ 281.17
Total cost	€ 467.27
